

BILLING CODE 4910-60-P

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

[Docket No. PHMSA-2013-0002 (Notice No. 13-14)]

Information Collection Activities

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA),
Department of Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, PHMSA invites comments on certain information collections pertaining to hazardous materials transportation for which PHMSA intends to request renewal from the Office of Management and Budget (OMB).

DATE: Interested persons are invited to submit comments on or before [Insert date 60 days after publication].

ADDRESSES: You may submit comments identified by the docket number (PHMSA-2010-0223) by any of the following methods:

- Federal eRulemaking Portal: Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- Fax: 1-202-493-2251.
- Mail: Docket Operations, U.S. Department of Transportation, West Building, Ground Floor, Room W12-140, Routing Symbol M-30, 1200 New Jersey Avenue, SE, Washington, DC 20590.

- Hand Delivery: To Docket Operations, Room W12-140 on the ground floor of the West Building, 1200 New Jersey Avenue, SE, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Instructions: All submissions must include the agency name and docket number or Regulation Identification Number (RIN) for this notice. Internet users may access comments received by DOT at: <http://www.regulations.gov>. Note that comments received will be posted without change to: <http://www.regulations.gov> including any personal information provided.

Requests for a copy of an information collection should be directed to Steven Andrews or T. Glenn Foster, Standards and Rulemaking Division (PHH-12), Pipeline and Hazardous Materials Safety Administration, 1200 New Jersey Avenue, SE, East Building, 2nd Floor, Washington, DC 20590-0001, Telephone (202) 366-8553.

FOR FURTHER INFORMATION CONTACT: Steven Andrews or T. Glenn Foster, Standards and Rulemaking Division (PHH-12), Pipeline and Hazardous Materials Safety Administration, 1200 New Jersey Avenue, SE, East Building, 2nd Floor, Washington, DC 20590-0001, Telephone (202) 366-8553.

SUPPLEMENTARY INFORMATION:

Section 1320.8 (d), Title 5, Code of Federal Regulations requires PHMSA to provide interested members of the public and affected agencies an opportunity to comment on information collection and recordkeeping requests. This notice identifies information collection requests that PHMSA will be submitting to OMB for renewal and

extension. These information collections are contained in 49 CFR 171.6 of the Hazardous Materials Regulations (HMR; 49 CFR Parts 171-180). PHMSA has revised burden estimates, where appropriate, to reflect current reporting levels or adjustments based on changes in proposed or final rules published since the information collections were last approved. The following information is provided for each information collection: (1) title of the information collection, including former title if a change is being made; (2) OMB control number; (3) summary of the information collection activity; (4) description of affected public; (5) estimate of total annual reporting and recordkeeping burden; and (6) frequency of collection. PHMSA will request a three-year term of approval for each information collection activity and, when approved by OMB, publish a notice of the approval in the Federal Register.

PHMSA requests comments on the following information collections:

Title: Inspection and Testing of Portable Tanks and Intermediate Bulk Containers

OMB Control Number: 2137-0018

Summary: This information collection consolidates provisions for documenting qualifications, inspections, tests, and approvals pertaining to the manufacture and use of portable tanks and intermediate bulk containers under various provisions of the HMR. It is necessary to ascertain whether portable tanks and intermediate bulk containers have been qualified, inspected, and retested in accordance with the HMR. The information is used to verify that certain portable tanks and intermediate bulk containers meet required performance standards prior to their being authorized for use, and to document periodic

requaification and testing to ensure the packagings have not deteriorated due to age or physical abuse to a degree that would render them unsafe for the transportation of hazardous materials.

Affected Public: Manufacturers and owners of portable tanks and intermediate bulk containers.

Annual Reporting and Recordkeeping Burden:

Number of Respondents:	8,770
Total Annual Responses:	86,100
Total Annual Burden Hours:	66,390
Frequency of collection:	On occasion

Title: Rulemaking and Special Permit Petitions.

OMB Control Number: 2137-0051.

Summary: This collection of information applies to rulemaking procedures regarding the HMR. Specific areas covered in this information collection include Part 105, Subpart A and Subpart B, “Hazardous Materials Program Definitions and General Procedures”; Part 106, Subpart B, “Participating in the Rulemaking Process”; Part 107, Subpart B, “Special Permits”; and Part 107, Subpart C, “Preemption.” The Federal hazardous materials transportation law directs the Secretary of Transportation to prescribe regulations for the safe transportation of hazardous materials in commerce. We are authorized to accept petitions for rulemaking and appeals, as well as applications for special permits, preemption determinations, and waivers of preemption. The types of information

collected include:

(1) *Petitions for Rulemaking*: Any person may petition the Office of Hazardous Materials Safety to add, amend, or delete a regulation in Parts 110, 130, 171 through 180, or may petition the Office of Chief Counsel to add, amend, or delete a regulation in Parts 105, 106 or 107.

(2) *Appeals*: Except as provided in § 106.40(e), any person may submit an appeal to our actions in accordance with the Appeals procedures found in §§ 106.110 through 106.130.

(3) *Application for Special Permit*: Any person applying for a special permit must include the citation of the specific regulation from which the applicant seeks relief; specification of the proposed mode or modes of transportation; detailed description of the proposed special permit (e.g., alternative packaging, test, procedure or activity), including as appropriate, written descriptions, drawings, flow charts, plans and other supporting documents, etc.

(4) *Application for Preemption Determination*: With the exception of highway routing matters covered under [49 U.S.C. 5125\(c\)](#), any person directly affected by any requirement of a State, political subdivision, or Indian tribe may apply to the Chief Counsel for a determination whether that requirement is preempted by § 107.202(a), (b) or (c). The application must include the text of the State or political subdivision or Indian tribe requirement for which the determination is sought; specify each requirement of the Federal hazardous materials transportation law, regulations issued under the Federal hazardous material transportation law, or hazardous material transportation security regulations or directives issued by the Secretary of Homeland Security with which the

applicant seeks the State or political subdivision or Indian tribe requirement to be compared; explain why the applicant believes the State or political subdivision or Indian tribe requirement should or should not be preempted under the standards of § 107.202; and state how the applicant is affected by the State or political subdivision or Indian tribe requirement.

(5) *Waivers of Preemption*: With the exception of requirements preempted under [49 U.S.C. 5125\(c\)](#), any person may apply to the Chief Counsel for a waiver of preemption with respect to any requirement that: (1) The State or political subdivision thereof or Indian tribe acknowledges to be preempted under the Federal hazardous materials transportation law, or (2) that has been determined by a court of competent jurisdiction to be so preempted. The Chief Counsel may waive preemption with respect to such requirement upon a determination that such requirement affords an equal or greater level of protection to the public than is afforded by the requirements of the Federal hazardous materials transportation law or the regulations issued thereunder, and does not unreasonably burden commerce.

The information collected under these application procedures is used in the review process by PHMSA in determining the merits of the petitions for rulemakings and for reconsideration of rulemakings, as well as applications for special permits, preemption determinations, and waivers of preemption to the HMR. The procedures governing these petitions for rulemaking and for reconsideration of rulemakings are covered in Subpart B of Part 106. Applications for special permits, preemption determinations, and waivers of

preemption are covered under Subparts B and C of Part 107. Rulemaking procedures enable PHMSA to determine if a rule change is necessary, is consistent with public interest, and maintains a level of safety equal to or superior to that of current regulations. Special permit procedures provide the information required for analytical purposes to determine if the requested relief provides for a comparable level of safety as provided by the HMR. Preemption procedures provide information for PHMSA to determine whether a requirement of a State, political subdivision, or Indian tribe is preempted under [49 U.S.C. 5125](#), or regulations issued thereunder, or whether a waiver of preemption should be issued.

Affected Public: Shippers, carriers, packaging manufacturers, and other affected entities.

Annual Reporting and Recordkeeping Burden:

Number of Respondents:	3,304
Total Annual Responses:	4,294
Total Annual Burden Hours:	4,899
Frequency of Collection:	On occasion

Title: Radioactive (RAM) Transportation Requirements

OMB Control Number: 2137-0510

Summary: This information collection consolidates and describes the information collection provisions in the HMR involving the transportation of radioactive materials in commerce. Information collection requirements for RAM include: shipper notification to consignees of the dates of shipment of RAM; expected arrival; special loading/unloading

instructions; verification that shippers using foreign-made packages hold a foreign competent authority certificate and verification that the terms of the certificate are being followed for RAM shipments being made into this country; and specific handling instructions from shippers to carriers for fissile RAM, bulk shipments of low specific activity RAM, and packages of RAM which emit high levels of external radiation. These information collection requirements help to establish that proper packages are used for the type of radioactive material being transported; external radiation levels do not exceed prescribed limits; and packages are handled appropriately and delivered in a timely manner, so as to ensure the safety of the general public, transport workers, and emergency responders.

Affected Public: Shippers and carriers of radioactive materials in commerce.

Annual Reporting and Recordkeeping Burden:

Number of Respondents:	3,817
Total Annual Responses:	21,519
Total Annual Burden Hours:	15,270
Frequency of collection:	On occasion

Title: Hazardous Materials Public Sector Training and Planning Grants

OMB Control Number: 2137-0586

Summary: Part 110 of 49 CFR sets forth the procedures for reimbursable grants for public sector planning and training in support of the emergency planning and training efforts of States, Indian tribes, and local communities to manage hazardous materials

emergencies, particularly those involving transportation. Sections in this part address information collection and recordkeeping with regard to applying for grants, monitoring expenditures, and reporting and requesting modifications.

Affected Public: State and local governments, Indian tribes.

Annual Reporting and Recordkeeping Burden:

Annual Respondents:	68
Annual Responses:	68
Annual Burden Hours:	5,290
Frequency of collection:	On occasion

Title: Cargo Tank Motor Vehicles in Liquefied Compressed Gas Service

OMB Control Number: 2137-0595

Summary: These information collection and recordkeeping requirements pertain to the manufacture, certification, inspection, repair, maintenance, and operation of certain Department of Transportation (DOT) specification and non-specification cargo tank motor vehicles used to transport liquefied compressed gases. These requirements are intended to ensure cargo tank motor vehicles used to transport liquefied compressed gases are operated safely, and to minimize the potential for catastrophic releases during unloading and loading operations. They include: (1) requirements for operators of cargo tank motor vehicles in liquefied compressed gas service to develop operating procedures applicable to unloading operations and carry the operating procedures on each vehicle; (2) inspection, maintenance, marking, and testing requirements for the cargo tank

discharge system, including delivery hose assemblies; and (3) requirements for emergency discharge control equipment on certain cargo tank motor vehicles transporting liquefied compressed gases that must be installed and certified by a Registered Inspector.

Affected Public: Carriers in liquefied compressed gas service, manufacturers and repairers.

Annual Reporting and Recordkeeping Burden:

Number of Respondents:	6,958
Total Annual Responses:	920,538
Total Annual Burden Hours:	200,914
Frequency of collection:	On occasion
